

Adobe Experience Platform Bootcamp Deep Dive Edition

DOCUMENTATION AND LABS

GUIDE TO SETUP POSTMAN

In order to work with the Experience Platform APIs you will need to work with a 3rd party tool called Postman. Follow the guide at the link below to learn how to download and configure Postman.

<https://developer.adobe.com/dep/guides/postman/getting-started/>

For the lab use the following Postman environment file located in the Microsoft Teams
